

## Contents:

(1) Shelf Splitting Rail

### Screws

Philips Head Type F  
 (4) #10 x 1 1/2"

### Hardware

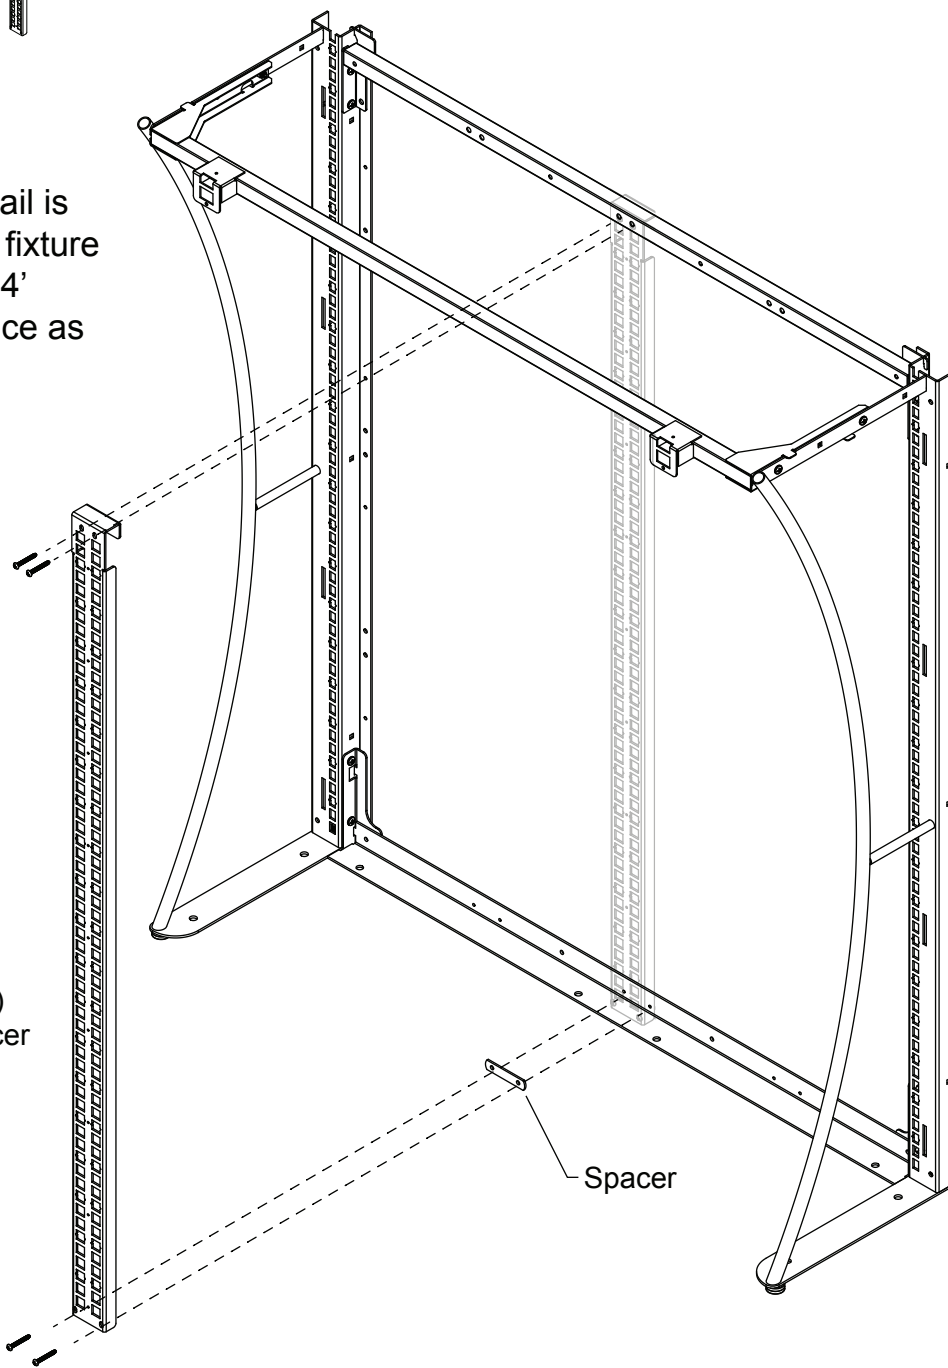

### Spacer

NOTE: May contain extra hardware not required.

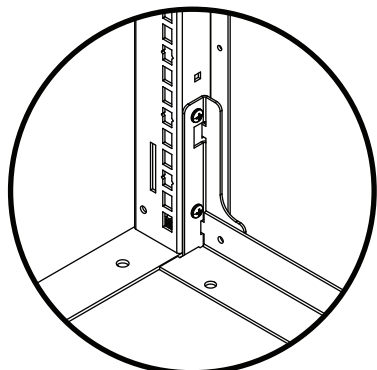

**NOTE:** The Shelf Splitting Rail is used to divide the width of a fixture into multiple sections (i.e., a 4' fixture could be set using twice as many 2' shelves).

1. Hang the Shelf Splitting Rail from the metal fixture. Secure using (2) #10 x 1 1/2" screws.

2. Secure bottom of rail using (2) #10 x 1 1/2" screws. Use Spacer **ONLY** if attaching to the adaptive frame fixtures.
